

2012/2013
EDITION 1

SUNDERLAND
OF SCOTLAND

With our corporate embroidery service you can make high quality Sunderland weatherwear the mark of excellence at your corporate golf event.

Renowned throughout the world as the original manufacturers of the very highest quality golfwear, Sunderland has supplied many of the greatest players in the history of the game. We are also proud of our long associations with the PGA and Ryder Cup – and now you can choose the Sunderland brand as the benchmark of quality for your own event.

All of our products are specifically designed and made to allow for bespoke corporate embroidery. You can choose to have your company logo or the event details embroidered on any of our garments. So make your mark – make the world's leading golf weatherwear the star of your own golf event.

SUNDERLAND
OF SCOTLAND

MEN'S COLLECTION

PUT SIMPLY - THIS IS SOME OF THE WORLD'S BEST PERFORMING AND MOST STYLISH GOLF WEATHERWEAR. THIS COMBINATION OF OUTSTANDING PERFORMANCE AND CONTEMPORARY DESIGN MEANS YOU STAY PROTECTED, COMFORTABLE AND LOOKING YOUR BEST - WHATEVER THE WEATHER.

From the revolutionary THERMAL13™ high performance fabric, introduced in the Tournament Collection, to the breakthrough performance provided by Teflon® water repellent fabric in our Windwear range, we continue to push back the boundaries of research in fabric performance, garment design and manufacture. The result is a range of weatherwear that is unrivalled in terms of both its performance and playability. This makes Sunderland the intelligent choice of professionals and discerning amateurs seeking the highest technical performance from their protective weatherwear.

TOURNAMENT

The ultra-lightweight Tournament Collection offers greater comfort, more freedom of movement and better protection from inclement weather than anything you'll ever have experienced before. Combining the revolutionary THERMAL13 high performance laminate fabric with a contemporary fit, the Tournament is the professionals choice

CONVERTIBLE WEATHERBEATER (TOU8WBCV)

SIZE: S - XXXL

- Ultra-lightweight construction
- Exceptional water repellency
- High performance THERMAL13™ fabric
- Reduced thermal conduction
- Stretch fabric inserts at back/shoulder area
- Micro-mesh stretch lining
- Slim-boy trim system
- Handwarmer zipped pockets
- High neck collar
- Droptail hem with twin shock cord adjustment
- Half elasticated comfort cuff
- Cuff and waist velcro tab adjusters
- Concealed zipped scorecard pocket
- Internal pocket
- Custom embroidery access zip
- Weatherbeater converts to half sleeve

THERMAL 13™ TECHNOLOGY

THERMAL13™ High Performance Fabric helps maintain the energy balance of the human body. It uses a revolutionary technique to disperse powdered Aluminium (micron-sized particles) within the polyurethane membrane itself. This helps keep the body warm, by utilising the glint function of the metal to reflect up to 60% of body warmth, thereby reducing the conduction of thermal energy through the membrane.

UV COLLECTION

The Sunderland UV collection comprises short sleeved polo shirts in four colours and long sleeved polo shirts in four colours – all of which feature the revolutionary Cocona™ fabric.

MEN'S ARIZONA UV SHIRT (SUNMS04)

SIZE: S - XXL

- UPF 40+ - Excellent sun protection
- Coolmax® Active fabric to keep you cool, dry and comfortable
- High Lycra® elastane content for fit and ease of movement
- Contrast piping detail
- Sunderland Never Weather Beaten print on front and back body panels
- 'S' print on centre back collar

UV TECHNOLOGY

Made utilising natural technology derived from coconut shells, the Cocona™ fabric can provide up to 50 ultraviolet protection factor, depending on colour and construction. With activated carbon embedded in its yarns and fibres, Cocona™ fabric absorbs harmful UVA and UVB radiation. And because it is not a chemical treatment applied to the fabric, there are no negative effects on the skin to worry about.

BASE LAYER

The Sunderland Base Layer offers ultimate X4 Protection to ensure you stay comfortable in all weathers. Its unique ThermoCool™ Eco yarn will keep you cool in warmer conditions, and keep you warm in cooler conditions.

ENDURANCE BASE LAYER (SUNMBO2)

SIZE: XS/S, M/L, XL/XXL

- Superior knitting technology and construction techniques
- Thermoregulation of body temperature through use of ThermoCool™ yarn
- Rib panels create a contour fit
- Seamless technology for comfort
- Mesh panels for enhanced breathability
- Flatlocked raglan seams

BASE LAYER TECHNOLOGY

ThermoCool™ Eco yarn is a unique blend of fibres designed to optimise the body's natural temperature control capabilities. An array of new features combine to offer superior thermo-regulation – helping to keep you cool and dry in warmer conditions, while during periods of low activity or in cold conditions, its thermo-buffering function helps prevent post-exercise chill.

JUNIOR COLLECTION

OUR JUNIOR COLLECTION OF HIGH-PERFORMANCE RAINWEAR HAS BEEN DEVELOPED WITH THE SAME TECHNICAL RESEARCH AND EXPERTISE AS OUR ADULT COLLECTIONS.

The fabric offers proven high-levels of water and windproofing yet is highly breathable. Combined with our informed tailoring and contemporary styles, this is the smart choice for junior golfers worldwide. Our accessories follow the same commitment and golfer's insight in their design and are manufactured delivering the same high quality standards of technical performance as our weatherwear. This is your essential range of high performance accessories – including the SOS jacket – offering emergency cover when the weather takes an unexpected turn for the worse.

PLAYER

LAST CHANCE

The Player Collection follows the success of the Dolphin with a much-improved suit enclosed within an ultra-soft laminate outer that provides incredible comfort and outstanding protection. The fabric itself is waterproof, windproof and highly breathable, while the cut gives it a younger, more stylish look to complement the performance and playability.

WINDWEAR TECHNOLOGY

A densely woven fabric combined with innovative construction allows water to bead off the surface and prevents wind or light rain from penetrating the garment.

- Fabric repels water and oil based spills
- Breathable, durable, dry and warm
- Fabric looks new for longer
- Easy-care washing
